CENTRIC SOFTWARE

"Simon is a highly experienced and creative events/exhibition professional who never fails to deliver. We have worked on several projects together and I've always found him a joy to work with. He is personable and a service provider who puts his clients first. Organizing big events can be challenging but having Simon and his team on your side can give you a peace of mind. Highly recommend and looking forward to working with him again in the future."

TESTIMONIALS

MICROSOFT ADVERTISING

"Thank you so much for your contribution to Microsoft Advertising at Cannes Lions! The Bing YLZ wi-fi Lounge and Cyber Cafe looked amazing... I also recognize the complexity we threw your way with bringing in a whole new team for you to work with. I'm happy to say, you took everything we tossed your way in stride and it was a pleasure working with you."

UNICORN TRAINING

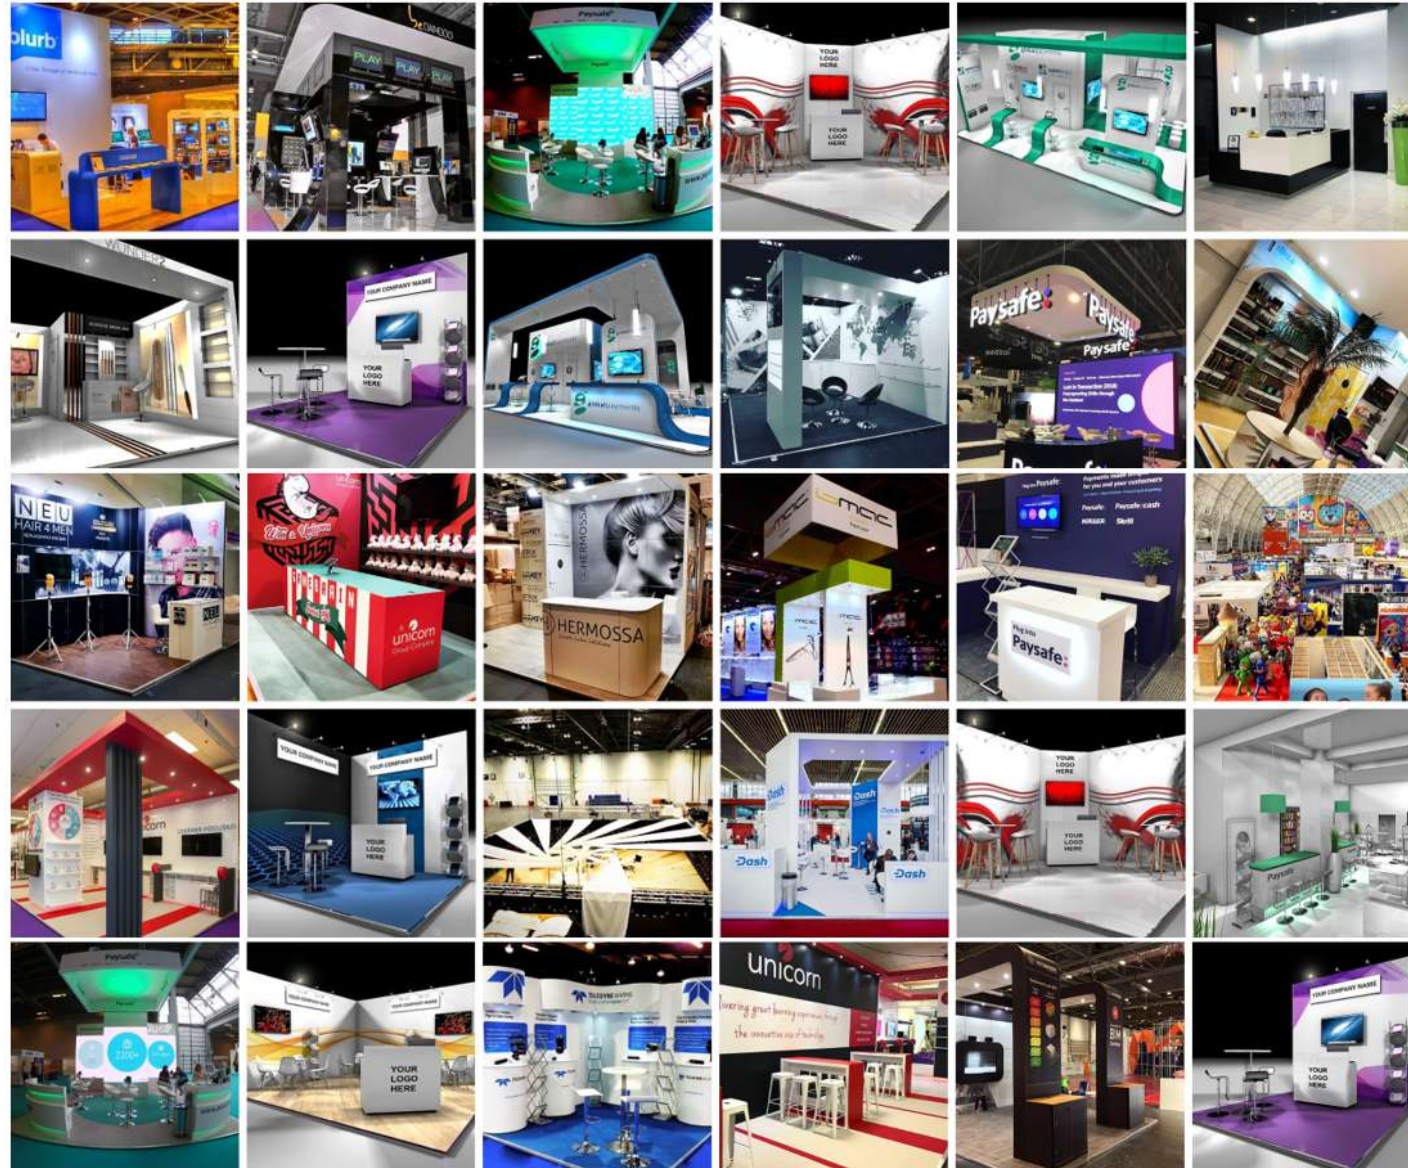

"I could not recommend Simon and the Incendo team more highly. As an experienced marketing professional, I have worked with numerous exhibition and event specialists over the years, but none have compared in terms of quality, support, and overall customer experience. Simon genuinely wants the best possible outcome, and his attention to detail and flexible, friendly manner set him well apart from the rest. Outstanding build quality, and the nicest team I think you could hope for!"
